Fire in the building occupied by the Lammert Furniture Company at Fourth and St. Charles streets at 6:30 o'clock last light resulted in a loss to the building and stock estimated at about \$75,000. The fire started in or near one of the electric switch boards on the fourth floor and is thought to have been caused by crossed wires. It was at about 6:30 o'clock, when there was no one in the oulding but the night watchman, who was on the ground floor. An alarm was urned in by a fireman at Engine-house

turned in by a fireman at Engine-house No. 23, at Third and Vine streets. The flames gained considerable headway among the chairs and upholstery on the fourth and fifth floors, and a second alarm was turned in.

The blaze was under control before it had spread to any of the lower floors and only the two top floors were damaged. The principal loss resulted from the water, which ran down into the lower floors, destroying much of the furniture. The loss to the stock was estimated at from \$5,000 to \$80,000, while the damage to the building was said to be about \$2,000. The building was furnished with automatic sprinklers, which worked as soon as the fire started, preventing its spreading rapidly.

the teeth deprives the individual of that beauty and charm possessed by those who have teeth of pearly whiteness. Teeth of this character are accombanded by a pure, sweet breath of natural fractance, and is brought about by the use of some good reliable rooth powder. For over forty years Dr. I. W. Lyon's Tooth Powder has been prepared, and as a dentifrice it is claimed that it meets all requirements, cleansing the teeth and preventing decay, aside from being harmless. It is put up in convenient form for tourists, being nacked in an enameled box, with patent telescopic measuring tub-and may be carried without denger of breakage or spilling. There are many limitations of Dr. Lyon's Tooth Powder out up in similar form, and the public is cautioned against such initiations. Will surely interest many readers of The Republic.
